This heavy duty Morbark Beever M15R PTO high performance drum style chipper with many attractive features and the ability to handle tough, limby material with ease, makes it a very popular chipper.

The Beever M15R PTO has a folding infeed tray to maintain a compact chipper during transport and to assure a large infeed opening when unfolded. With it's maximum chipping capacity of 38 cm it's ideal for many applications and available in many different versions like on a single axle trailer or to be mounted in front of a chipbox.

Standard Equipment:

automatic feed system; hydraulic sight gauge; variable speed flow control; folding infeed tray; turnable discharge chute;
